

## **1961 Bentley S2**

This car has been in our collection since 1998 when it was colour-changed to Black-over-Tudor Grey to match the Bentley Mk VI.

The headlining and carpeting have been re-trimmed to their original Grey and Wedgwood Blue colours respectively which complement the Dove Grey Leather upholstery.

It is a very roomy 4-passenger car offering smooth luxurious travel and is equipped with cocktail tables in the rear of the front seats for that all-important drink on the way to the Reception.

Because of its driver-friendly nature and cruising capability it has proved an ideal car for weddings involving greater travelling distances.

This car is used extensively as a Wedding or Special Occasion car in its own right, or as a second car to the Bentley Mk VI or Beauford Convertible.

Being built in 1961 it is also appropriate for Ruby Wedding celebrations, providing an experience almost unheard of at the time of the original wedding when the same money would have purchased two 3-bedroom semi-detached houses!

Powered by a 6 ¼ litre V-8 engine, weighing 2 tons and capable of 106 mph (although naturally limited now to 70 mph) it will travel a full 12 miles on each gallon of fuel - but what a pleasurable 12 miles!
